

Corporate Profile

Who we are?

The Mustek Group is a seamless end-to-end information and communications technology (ICT) and sustainable technology solutions provider, founded by David Kan in 1987 and listed on the JSE in 1997. Over the years, it has transformed from a distribution-oriented entity to a cohesive Group with a mission centred on anticipating stakeholder needs for long-term sustainability.

The Group's strategic intent is to build strong businesses and create synergies for sustainable success by operating as a unified entity with a shared mission.
